*This book offers the first complete English translation of the poems by the late-medieval German (Tyrolean) Oswald von Wolkenstein (1376/1377-1445). Oswald von Wolkenstein was one of the leading poets of his time and created some of the most exciting, experimental, and also deeply religious-conservative poetry of the entire Middle Ages and far beyond. German scholarship and musicologists have long recognized the extraordinary strength and power of Oswald's Middle High German songs, both in terms of his poetic imagery and his musical performance. This book proves Oswald's work to be one of the most idiosyncratic and individualistic in the entire late Middle Ages.*

On this remarkable recording, David and Tony perform 17 original compositions on a wide range of vintage instruments. Mel Bay Publications, Inc., is proud to present both a mandolin and a guitar edition of Tone Poems, both transcribed by noted guitarist/arranger John Carlini. *Winner of the C. Hugh Holman Award A central figure in twentieth-century American literature, Robert Penn Warren (1905–1989) was appointed by the Library of Congress as the first Poet Laureate of the United States in 1985. Although better known for his fiction, especially his novel All the King's Men, it is mainly his poetry—spanning sixty years, fifteen volumes of verse, and a wide range of styles—that reveals Warren to be one of America's foremost men of letters. In this indispensable volume, John Burt, Warren's literary executor, has assembled every poem Warren ever published (with the exception of Brother to Dragons), including the many poems he published in The Fugitive and other magazines, as well as those that appeared in his small press works and broadsides. Burt has also exhaustively collated all of the published versions of Warren's poems—which, in some cases, appeared as*

And since Warren never seemed to reread any of his books without a pencil in his hand, Burt has referred to Warren’s personal library copies. Warren was born and raised in Guthrie, Kentucky, where southern agrarian values and a predilection for storytelling were ingrained in him as a young boy. By 1925, when he graduated from Vanderbilt University, he was already the most promising of that exceptional set of poets and intellectuals known as the Fugitives. Warren devoted most of the 1940s and 1950s to writing prose and literary criticism, but from the late 1950s he composed primarily poetry, with each successive volume of verse that he penned demonstrating his rigorous and*

The mature visionary power and technical virtuosity of his work in the 1970s and early 1980s emanated from his strongly held belief that “only insofar as the work [of art] establishes and expresses a self can it engage us.” Many of Warren’s later poems, which he deemed “some of my best,” rejoice in the possibilities of old age and the poet’s ability for “continually expanding in a vital process of definition, affirmation, revision, and growth, a process that is the image, we may say, of the life process.”*

A collection of poems by Claude McKay, one of the first poets of the Harlem Renaissance.

Children's writer and poet Amy Ludwig VanDerwater leads us on an adventure through poetry, pointing out craft elements along the way that students can use to improve all their writing, from idea finding to language play. "Poems wake us up, keep us company, and remind us that our world is big and

small," Amy explains. "And, too, poems teach us how to write. Anything." This is a practical book designed for every classroom teacher. Each lesson exploration includes three poems, one by a contemporary adult poet and two by students in grades 2 through 8, which serve as models to illustrate how poetry teaches writers to: find ideas, choose perspective and point of view, structure texts, play with language, craft beginnings and endings, choose titles. Students will learn how to replicate the craft techniques found in poetry to strengthen all writing, from fiction to opinion, from personal narrative to information. "Poets arrange words and phrases just as prose writers do, simply in tighter spaces," Amy

Alongside Spenser, Sidney and the early Donne, Shakespeare is the major poet of the 16th century, largely because of the status of his remarkable sequence of sonnets. Professor Cousins' new book is the first comprehensive study of the Sonnets and narrative poems for over a decade. He focuses in particular on their exploration of self-knowledge, sexuality, and death, as well as on their ambiguous figuring of gender. Throughout he provides a comparative context, looking at the work of Shakespeare's contemporaries. The relation between
